Annual Maintenance

KNEST digital platform — 12-month support & maintenance

PROPOSAL NO. KNEST/AMC/2026-27/001	ISSUED 10 September 2026	VALID UNTIL 10 October 2026	ANNUAL FEE ₹38,400
---------------------------------------	-----------------------------	--------------------------------	-----------------------

BILLED TO

KNEST
KIIT Nest — Innovation & Entrepreneurship Ecosystem
Kalinga Institute of Industrial Technology
Patia, Bhubaneswar, Odisha — 751024
India
Attn: «Name, Designation»

PROPOSED TERM

01 October 2026 — 30 September 2027
Twelve months, beginning the day the 30-day post-launch defect window on invoice KNEST/2026-27/001 ends, so there is no gap in cover.

Renewable annually by mutual consent, with any revision capped at 10% of the then-current fee.

Why this contract exists

The platform is live, holds real applicant data and is the public face of KNEST. Software of this kind does not stand still: browsers change, security advisories are published against the libraries it depends on, intake cycles bring new programmes and new questions, and databases need looking after. This contract covers that ongoing work at a fixed annual fee, so KNEST is not negotiating a price every time something needs attention.

The fee is 39% of the development cost — within the customary 15–40% band for annual maintenance on a platform of this size.

Scope of maintenance & charges

Priced module by module, on the same basis as the development invoice. No single line exceeds ₹5,000. Amounts are in Indian Rupees, for the full 12-month term.

#	COVERAGE AREA	ANNUAL (₹)
Platform Upkeep & Security Keeping what is live healthy, current and safe.		
01	Dependency & framework updates Scheduled quarterly update cycle across the application framework, CMS, database layer and libraries, each verified before release.	₹3,200
02	Security patch management Monitoring of security advisories affecting the stack, impact triage, and out-of-cycle patching for anything critical.	₹3,600
03	Database maintenance Migration runs, index and vacuum health, storage growth review and data integrity checks.	₹2,400
04	Backup verification & restore drills Two documented restore drills a year, proving the backups actually restore rather than assuming it.	₹2,400
05	Uptime & error monitoring Availability and error-rate monitoring with alert triage, and a written note on anything that caused downtime.	₹2,400
Subtotal — Platform Upkeep & Security		₹14,000
Module Support Ongoing support, per module, for the platform as delivered.		
06	Accounts & access Account recovery, role and permission changes, sign-in issues, staff onboarding and offboarding.	₹1,800
07	Content management Adjustments to content types and fields, editor assistance, and support for the staff who publish.	₹2,400
08	Public website content operations New sections, page updates and layout adjustments within the existing design system.	₹2,400

#	COVERAGE AREA	ANNUAL (₹)
09	Applications & review workflow Question-set updates ahead of each intake cycle, reviewer workflow adjustments and cycle-open support.	₹2,800
10	Events & notifications Event flow and notification/email template adjustments.	₹1,600
11	Analytics Funnel and report definition updates as the programmes change.	₹1,200
12	Media & storage Object-storage lifecycle management and image pipeline upkeep.	₹1,200
	Subtotal — Module Support	₹13,400
Service Level & Included Changes Response commitments and a bundled budget for small changes.		
13	Bug resolution Unlimited Priority 1 and Priority 2 defect fixes within the response times set out below, at no additional charge.	₹3,200
14	Included change budget 12 engineering hours a year for small enhancements — copy, fields, filters, layout tweaks, report changes. Unused hours do not carry over.	₹3,200
15	Release & deployment support Deployments, rollbacks, environment configuration and credential rotation.	₹1,600
16	Annual performance & accessibility audit One full audit a year against performance and WCAG 2.1 AA targets, with a written report and a remediation list.	₹1,800
17	Training refresher & documentation upkeep One refresher session a year for staff editors and reviewers, plus documentation kept current.	₹1,200
	Subtotal — Service Level & Included Changes	₹11,000
	Subtotal (17 coverage areas)	₹38,400
	GST	Not applicable
	Annual maintenance fee	₹38,400

Rupees Thirty-Eight Thousand Four Hundred Only · ₹3,200 per month equivalent

Service levels

Priority	What it means	Response	Target resolution
P1 — Critical	Site down, sign-in broken, applications cannot be submitted, or a data/security incident.	4 business hours	1 business day
P2 — High	A module is unusable or wrong, but a workaround exists — a broken review action, a failing upload.	1 business day	3 business days
P3 — Normal	Cosmetic issues, minor content or copy corrections, small requests.	3 business days	Next release cycle
P4 — Change	Enhancements drawn from the included 12-hour annual change budget.	3 business days	Scheduled, by agreement

Support window: Monday to Saturday, 10:00–19:00 IST, excluding public holidays. Requests are raised by email; P1 incidents may additionally be raised by phone or WhatsApp at any hour. Response times run from within the support window. Release cycle: one scheduled maintenance release each month, plus out-of-cycle releases for P1 and security fixes.

Billing options

Option	Schedule	Per instalment	Annual total
Annual, in advance — recommended	One payment at the start of the term	₹38,400	₹38,400
Quarterly	Four payments, each in advance of the quarter	₹9,600	₹38,400

Both options carry the same total and the same cover; quarterly exists purely to suit institutional budget cycles. Payment terms are 15 days from each invoice.

Outside this contract

Charged separately

- Enhancement work beyond the included 12 hours a year, at **₹700 per hour**, estimated and approved in writing before work starts.
- New modules or significant features — quoted per module, on the same basis as the development invoice.
- Visual redesign or rebranding beyond the existing design system.
- Migration to a different hosting provider or platform.
- Content writing, photography, data entry and bulk data imports.

Not covered

- Third-party service fees and licences — hosting, database, storage, email.
- Domain registration and renewal, which KNEST holds and pays for directly.
- Faults caused by changes made to the code or infrastructure by anyone other than the supplier.
- Loss or corruption caused by KNEST staff actions in the admin console — recovery is chargeable at the hourly rate above.
- Outages attributable to a third-party provider, beyond triage, escalation and reporting.

Infrastructure — indicative annual cost to KNEST

These are paid by KNEST directly to the providers and form no part of the fee above. Figures are indicative for the expected first-year load and will vary with traffic and storage. Actual provider pricing should be confirmed before budgeting.

Service	Purpose	Indicative per year
Domain name	Public address for the platform	Held by KNEST
Application hosting	Runs the website, portal and admin console	₹0 – ₹24,000
Managed PostgreSQL	Content, accounts and application records	₹0 – ₹30,000
Object storage & CDN	Uploaded documents, images, media delivery	₹1,500 – ₹12,000
Transactional email	Verification, reset and notification mail	₹0 – ₹6,000

The lower ends reflect free tiers, which are adequate at launch volumes; the upper ends reflect paid tiers once traffic, stored documents or mail volume grow. Recommending when to move up a tier, and doing the move, is included in the maintenance fee.

Terms

- **Term.** Twelve months from 01 October 2026, renewable by mutual consent. Any renewal increase is capped at 10% of the then-current fee.
- **Termination.** Either party may terminate with 30 days' written notice. On termination, fees for the unexpired period are refunded pro rata, less any enhancement work already delivered.
- **Handover on exit.** All source code, credentials, documentation and data export are handed over within 14 days of termination, at no charge.
- **Ownership.** KNEST owns the source code and all data. The supplier retains no rights over either, and may reference the project as portfolio work unless KNEST asks otherwise in writing.
- **Confidentiality.** Applicant and member data is confidential, accessed only where necessary to deliver support, and never copied out of the production environment except for a documented, secured backup restore.
- **Continuity.** If the supplier is unable to continue, an orderly handover of at least 30 days is provided, including documentation and a working session with any incoming team.
- **Liability.** The supplier's aggregate liability under this contract is limited to the annual fee paid.
- **Escalation.** Anything unresolved past its target resolution time is escalated to the named KNEST point of contact with a written explanation and a revised commitment.

Acceptance

To accept, sign below and return one copy. An invoice for the selected billing option is raised on acceptance, and cover begins on 01 October 2026.
