ENGAGEMENT

KNEST digital platform — build & launch
Public website, member portal and staff operations console over one shared account and content model.

Status: delivered, deployed and in production.
Basis: fixed price, charged module by module.

Scope of work & charges

Each line below is a delivered, working module. Charges are fixed per module, not hourly, and no single module exceeds ₹5,000. Amounts are in Indian Rupees.

#	MODULE & DELIVERABLE	AMOUNT (₹)
Foundation & Design System The base the rest of the platform is built on.		
01	Project foundation Application framework, code standards, type safety, build and release pipeline.	₹2,000
02	Database architecture Two separate stores in one database — editorial content kept apart from operational records — so the CMS never becomes the backend.	₹2,400
03	Database schema, migrations & seed tooling 8 schema modules, 6 versioned migrations, and seeding scripts for first-run and demo data.	₹2,200
04	Design system Colour palette, typography scale, spacing, borders and motion rules, expressed as reusable design tokens.	₹2,800
05	Interface component library 20 reusable components — buttons, cards, form fields, tables, badges, timelines, empty and loading states.	₹3,200
06	Site-wide layout Responsive header, mobile navigation drawer, footer and keyboard skip-navigation, consistent across all pages.	₹2,400
	Subtotal — Foundation & Design System	₹15,000
Accounts & Access Control One account per person; one login for the whole platform.		
07	Authentication core Sign-in system backed by server-side sessions that can be revoked instantly — removing someone locks them out on their next request.	₹2,800
08	Sign-up & sign-in Account creation and password sign-in with industry-standard password hashing.	₹2,200
09	Email verification Verification link issue, expiry and confirmation.	₹1,600
10	Password reset Reset request and secure confirmation flow.	₹1,600
11	Roles & permissions Staff / member separation, protected routes, and permissions re-checked from the database on every request.	₹2,400

#	MODULE & DELIVERABLE	AMOUNT (₹)
12	Account screens Six screens — sign in, sign up, verify, verification confirmation, reset request, reset confirmation.	₹2,400
	Subtotal — Accounts & Access Control	₹13,000
Content Management System Everything on the public site is editable by KNEST staff without a developer.		
13	CMS setup & staff console Admin console mounted inside the application, with staff signing in using the same single account as the rest of the platform.	₹3,000
14	Content types — Programs, Cohorts, Startups, Founders Fields, relationships, validation and editor layout for four content types.	₹2,400
15	Content types — Mentors, Events, Partners, Infrastructure Fields, relationships, validation and editor layout for four content types.	₹2,200
16	Content types — Resources, Articles, FAQs, Media library Four content types including rich-text authoring and the image/media library.	₹2,000
17	Content types — Metrics, Testimonials, Staff, Homepage settings Three content types plus site-wide homepage settings.	₹1,600
18	Content delivery layer 11 typed data services that read published content for the public site, with safe fallbacks so a database hiccup degrades gracefully instead of erroring.	₹2,800
	Subtotal — Content Management System	₹14,000
Public Website The public front door — discover, self-locate, apply.		
19	Homepage Hero, the triple-helix ecosystem model, live counters that read real data, and calls to action.	₹3,000
20	Programs Programme listing with filters, plus an individual page for every programme.	₹2,000
21	Startups Startup directory, plus an individual profile page for every startup.	₹1,800
22	Mentors Mentor directory, plus an individual profile page for every mentor.	₹1,800
23	Events Event listing, plus an individual page for every event.	₹1,800
24	Resources & Articles Resource listing and formatted long-form article pages.	₹2,000
25	About, Ecosystem & Invest pages Three editorial pages covering the organisation, the ecosystem and the investor-facing pitch.	₹2,200
26	Site-wide search One search across programmes, startups, mentors, events and resources.	₹1,600
	Subtotal — Public Website	₹16,200
Member Experience What a student, founder or mentor actually uses after signing up.		
27	Guided onboarding A short intake that places a person at their real stage and recommends the programmes that fit.	₹2,800
28	Application system Applications with question sets configured per programme — staff can change the questions without a code change.	₹3,200
29	Application lifecycle Draft, submit and review states with server-side validation, so an incomplete or tampered application cannot be submitted.	₹2,400
30	Document uploads Cloud file storage with real file-type verification, not just a trusted file extension.	₹2,200

#	MODULE & DELIVERABLE	AMOUNT (₹)
31	Member dashboard Journey status, application progress and registered events in one place.	₹2,200
32	Event registration Register and cancel, with capacity respected.	₹1,200
33	Notification centre In-app notifications with read state, delivered as applications and events progress.	₹1,800
	Subtotal — Member Experience	₹15,800
Administration & Operations The tools KNEST staff run the programmes with.		
34	Application review console Reviewer queue with filters and a full applicant detail view.	₹2,800
35	Review decisions & audit trail Status changes with permitted transitions enforced and every decision recorded against a reviewer.	₹2,000
36	Controlled document access Reviewers can open applicant documents; nobody else can, and access is not guessable by URL.	₹1,200
37	Analytics dashboard Activity tracking plus an application funnel — how many people start, complete and are accepted.	₹2,400
	Subtotal — Administration & Operations	₹8,400
Quality, Security & Launch The work that makes it safe to put in front of the public.		
38	Transactional email Delivery setup and message templates for verification, reset and notification mail.	₹1,800
39	Security hardening Content security policy, browser security headers, and rate limiting on every sensitive route.	₹2,200
40	Accessibility WCAG 2.1 AA conformance pass — contrast, keyboard operation, focus handling, screen-reader labelling and reduced-motion support.	₹2,600
41	Automated tests & flow verification Unit tests over the rules that must not break, plus scripted end-to-end verification of the auth and application flows.	₹1,800
42	Performance & search visibility Image pipeline, load-time tuning, page metadata and social preview cards.	₹1,400
43	Brand & interface polish Official KNEST logo integration and the final visual pass across every screen.	₹2,000
44	Production deployment & go-live Build configuration, environment and secret setup, database provisioning, migration run and launch.	₹2,800
45	Handover documentation Architecture, content-editing and operations documentation written into the repository.	₹1,200
	Subtotal — Quality, Security & Launch	₹15,800
Subtotal (45 modules)		₹98,200
Discount		—
GST		Not applicable
Total payable		₹98,200

Rupees Ninety-Eight Thousand Two Hundred Only

What this invoice includes

Delivered with the build

- Full source code and ownership, handed over in the KNEST repository.
- Production deployment, configured and live.
- Database provisioning, schema migrations and first-run seed data.
- Staff admin console with content editing for every public content type.
- Architecture, content-editing and operations documentation.
- One handover walkthrough for KNEST staff.
- 30 days of post-launch defect support from the invoice date, at no charge.

Not included in this invoice

- Domain name — being provided and paid for by KNEST.
- Hosting, database, storage and email costs, billed by those providers directly to KNEST.
- Content writing, photography and data entry.
- Third-party licences or paid plugins, should any be added later.
- New modules or features beyond the 45 listed, which are quoted separately.
- Ongoing maintenance after the 30-day defect window — covered by the separate annual maintenance proposal.

Deployment note. The platform is deployed and running. The domain is supplied by KNEST — once the DNS records are pointed as documented in the handover notes, the site serves on the KNEST domain with HTTPS. Connecting the domain is included; purchasing and renewing it is not.

Payment

Bank transfer / UPI

Account holder	«Account holder name»
Bank & branch	«Bank name, Branch»
